What you will be doing:

- Bring your great attitude and ownership and play a huge part in providing quality test advice, planning, and outcomes
- Take on challenges with a smart, dedicated team of like-minded peers
- Collaborate with the Business, Architects, Engineers, Technical teams and Business Analysts to understand the solution and work out the best way to test it
- Dazzle us with your great comms and reporting skills

What will be in your toolkit?

- Proven testing experience gained within a commercial environment
- Ability to work independently to deliver solutions from basic requirements
- Capability to communicate effectively and work as part of a team
- Strong work ethic, self-motivated and willing to go the extra mile to get the job done
- Strong analytical and problem-solving skills
- A strong focus on high quality, you'll be passionate about best practice and producing high quality test artifacts

Why Us?

At Westpac, we're committed to providing an inclusive culture, so our employees can bring their whole selves to work and have a sense of belonging. Expect a work environment that is highly collaborative, fast-paced, inclusive, and progressive.

In addition to the appropriate experience and capabilities, the alignment of your values is essential. We're a company who are progressive, we're committed to continuous improvement, we're actively involved in the community, and we nurture a culture that celebrates diversity. We've been awarded the rainbow tick accreditation, we promote, and support flexibility and we're listed as one of the top 50 employers in the world for women.

What's in it for me?

- Join a supportive community of tester's who values diversity and creates opportunities for you to be your best
- Be involved in the biggest program within Westpac
- Work on a wide variety of business-critical initiatives and projects
- Flexible work options, including working from home
